PARTS LIST

- Wire Form
- Mounting Clips
- #6 x 1/2" Phillips Head Screws

TOOLS REQUIRED

- Soft Pencil
- Electric Drill
- 3/32" Drill Bit
- Phillips Screwdriver

Base Waste Basket Installation Instructions

Step 1 Determine where wire form is to be installed, slide out tray, shelf or cabinet bottom. Set wire form in place to insure proper fit and clearance.

Step 2 Locate plastic clips (supplied) and snap over wire in desired mounting location. Set wire form in place and with a soft pencil mark all mounting clip locations.

Step 3 Remove wire form and drill 3/32" pilot hole for each clipping mount.

Step 4 Fasten mounting clips in place with #6 x 1/2" Phillips head screws.
