

FEATURES

- Specifically designed to efficiently organize common kitchen boxes of all types and sizes.
- White epoxy-coated wire.
- Rack size is 11-1/4" wide x 6-1/4" deep x 8" high.
- FBRK 18 designed to fit a SB 36.
- FBRK 21 designed to fit a SB 42.
- FBRK 24 designed to fit a SB 24 L/R, SB 48.

PARTS LIST

- A. Box Holder
- B. Mounting Screw Package (4)
- C. End Caps (4)

TOOLS REQUIRED

- Phillips Head Screwdriver
- Drill with 1/16" Bit for Pilot Holes
- Pencil

Foil Box Rack Installation Instructions

Step 1 Open door of cabinet and hold Box Holder (A) in place on door. The Box Holder (A) is designed to be installed into the side frames of the cabinet door where the wood is thickest.

Step 2 Place end caps on the two (2) horizontal bars on the rear of the Box Holder (A). Mark position of the Mounting Screws (B) location with a pencil. It is recommended to use small pilot holes drilled into the door side frame to avoid splitting the wood. Fasten Box Holder (A) in place with two (2) Mounting Screws (B) into top End Caps (C).

Step 3 Close the cabinet door to verify that the Box Holder (A) will not interfere with the door closing completely. Open door and place the two remaining Mounting Screws (B) into the bottom End Caps (C).
