

FEATURES

- Easily installs horizontally or vertically in base cabinets or over pantry, oven or refrigerator wall cabinets.
- White epoxy-coated wire dividers.
- 11" x 16"

PARTS LIST

- Wire Form
- Mounting Clip
- #6 x 1/2" Phillips Head Screw

TOOLS REQUIRED

- Soft Pencil
- Electric Drill
- 3/32" Drill Bit
- Phillips Screwdriver

Tray Divider Installation Instructions

Step 1 Determine where wire form is to be installed on cabinet bottom. Set wire form in place to insure proper fit and clearance.

Step 2 Locate plastic clips (supplied) and snap over wire in desired mounting location. Set wire form in place and with a soft pencil mark all mounting clip locations.

Step 3 Remove wire form and drill 3/32" pilot hole for each clipping mount.

Step 4 Fasten mounting clips in place with #6 x 1/2" Phillips head screws.
